EXPERIENCE

2023 April - Present
Digital Transformation & Customer Experience @ Tsogo Sun

Key Responsibilities

- Led digital platform optimization across 15 high-volume properties, including 9 luxury hotels, 6 casinos, Gold Reef City theme park and fine dining venues, driving traffic growth to 4.8 Million+ monthly active users.
- Translated strategic business objectives and customer needs into digital initiatives focused on growth, engagement, customer experience and digital performance.
- Contributed to the successful launch of the Tsogo Sun Rewards App by implementing an intuitive CMS workflow that streamlined content uploads, on-boarding and offerings.
- Identified and automated key digital workflows, eliminating manual tasks to significantly boost operational efficiency and team productivity.
- Leveraged analytics and customer behavior data to pinpoint journey friction, prioritize optimization initiatives, and unlock key growth opportunities that enhanced digital performance.
- Engineered CMS governance standards and toolkits, directing end-to-end web content execution to guarantee seamless, brand-compliant digital experiences that meet core business targets.
- Coordinated cross-functional teams across product development, UX, content and business stakeholders to execute multi-channel digital initiatives and aligned with strategic priorities.

2019 October - 2023 February
Digital Strategist & Martech @ First Dream Agency

Key Responsibilities

- Led cross-functional digital programmes connecting business strategy, customer experience, automation, data and digital channels.
- Developed customer lifecycle strategies across acquisition, onboarding, nurturing, re-engagement, cross-sell and retention.
- Designed automation strategies that improved operational efficiency and created scalable digital processes.
- Led digital growth programmes across websites, SEO, CRM, email, paid media and customer engagement.
- Managed stakeholder relationships and external partners, translating business requirements into digital priorities and delivery plans.
- Used customer and performance data to identify opportunities for growth, optimisation and improved customer engagement.

EXPERIENCE

2016 February - 2019 September

Digital Growth @ Engen

Key Responsibilities

- Developed and executed data-driven digital growth strategies that delivered 70% traffic growth, strengthening customer engagement, digital experiences and overall commercial performance.
- Developed SEO and content strategies to increase organic visibility and long term digital acquisition.
- Optimised websites and customer journeys, contributing to a 20% improvement in user engagement and lead conversions.
- Built customer engagement programmes that achieved 65% improvement in email open rates and 40% improvement in click-through rates.
- Developed lead-generation and remarketing strategies that improved conversion rates by 12%.
- Used analytics, CRM data and customer insights to identify commercial opportunities and guide digital strategy.

2014 March - 2016 February

Digital & Ecommerce specialist @ Aldo Group

Key Responsibilities

- Oversaw the development of organic and paid social media strategies across platforms, ensuring consistent brand messaging and engagement.
- Optimised ecommerce websites and customer journeys to improve digital experience, engagement and conversion.
- Enhanced customer experience through ecommerce site optimizations and CRM integrations, increasing engagement and conversion.
- Implemented search engine optimization and CRO on store platforms and profiles.
- Developed personalized email workflows based on user behavior and demographic segmentation, significantly enhancing engagement and conversion rates.
- Developed personalised customer experience workflows using behavioural and demographic segmentation.
- Translated consumer en-shopper insights into a shopper strategy, developed and implemented in-store activation plan in offline channels and strengthen brand loyalty.
- Empowered social media managers with robust analytics tools to measure and report on web traffic generated by their efforts, facilitating data-driven decision-making.
- Used analytics and customer insights to identify opportunities for digital and commercial improvement.
